Riese Pio X, March 9<sup>th</sup>, 2020

## Coronavirus (COVID-19) situation in Italy – New update

Dear Customer, Agent, Distributor,

on March 9<sup>th</sup>, 2020 the Italian government decided to extend the restrictive measures to the whole national territory.

All of Italy is therefore located within the red zone, without any distinction between regions.

The Decree confirms what has already been communicated previously, namely:

- we are authorized to go to work and continue our production activity;
- transporters are authorized for loading / unloading activities;
- the railway and intermodal system are operating without any limitation;

We continue to maintain close contact both with transport companies and with local and government authorities for any updates on the situation.

We confirm continuity in internal measures adopted in compliance with the requirements of the Ministry of Health.

However, what we cannot foresee is any further decisions made by local and/or country authorities regarding further restrictions, to which we will have to adapt promptly.

We are confident that the efforts required by the Government will lead to an improvement in the situation, which we hope will be solved as soon as possible.

We thank everyone again for the collaboration and commitment you are showing.

Best Regards,
