HELIOS's update on the coronavirus (COVID-19) outbreak

At HELIOS, the situation regarding operation of our production sites and raw material supplies remains unchanged and is very much the same as last week. The same applies to the measures taken to ensure health and safety of our employees and other stakeholders.

To stem the spread of coronavirus, Russia prolonged its preventive measures and non-working period until April 30, 2020. Since the authorities draw up different measures by regions, please turn to your standard contacts within HELIOS for more information and updates on shipments and deliveries.
